

DHRUV JAIN

Semester 4, B.Tech in Computer Science and Engineering

Bangalore, Karnataka, India

+91 8765552020 dhruvjeng@gmail.com [Dhruv Jain](#) [Github](#)

PERSONAL SUMMARY

- Dynamic and results-driven professional with a strong foundation in leadership, event management, and game development. Club Head at G Cube-PESU RR's first ever Game Development Club, leading initiatives and guiding teams to success.
- Experienced Event Manager for The Embrione and IRA PESU, managing end-to-end event logistics. Core Committee Member for the S&H Department, contributing to department-wide academic and extracurricular planning.
- Currently working as a game developer under CAVE LABS using Blender, UE5. Adept in coding, communication, decision making, data analysis, and time management.

EDUCATION

PES University - RR Campus

B.Tech in Computer Science and Engineering, CGPA: 7.9/10

Aug 2023 - Ongoing

Bangalore, Karnataka

Delhi Public School Varanasi

CBSE Boards(AISSCE): 83%

March 2023

Varanasi, Uttar Pradesh

Delhi Public School Varanasi

CBSE Boards(AISSE): 89%

March 2021

Varanasi, Uttar Pradesh

RELATED COURSEWORK

- Python For Computational Problem Solving
- Problem Solving with C
- Engineering Mathematics - I & II
- Web Development - PESU I/O course
- Data Structures & Applications
- SOC Analysis
- Advanced 3D Modeling
- Graphic and Game Design

TECHNICAL SKILLS

Languages & Tools: C, Python, HTML, CSS, JavaScript, MERN Stack, LaTeX

Developer Tools: Visual Studio Code, Blender (3D Design), Unreal Engine 5, Security Onion, MongoDB Compass

Technologies/Frameworks: Linux, OSINT, TensorFlow, PyTorch, NumPy, Pandas, Matplotlib, Seaborn, Qiskit, PennyLane, BeautifulSoup, Scikit-learn

Soft Skills: Leadership, Collaboration, Communication, Decision-making, Time Management, Data Analysis, Project Management

PROJECTS & ACHIEVEMENTS

Develop for Her 5.0 Ideathon | *Maternal Healthcare Solution*

- Winners of ACM-W's Ideathon with an innovative idea aimed at improving maternal healthcare during pregnancy.
- Proposed a tech-enabled solution focused on early detection and wellness tracking.

SOC Project: Network Traffic Monitoring | *Security Onion*

- Part of PESU ISFCR SOC team to monitor, log, and analyze network traffic.
- Utilized Security Onion to identify potential threats and build threat detection skills.

Project Maze Runner | *3D Game Development in Unreal Engine*

- Created a action-driven, realistic 3D survival game during CAVE LABS Internship using Unreal Engine.
- Worked in a dedicated game dev team, contributing to graphic design and gameplay logic.

PESU I/O Slot 16 | *Full-Stack Development*

- Collaborated with a mentor-guided team to build a fully functional YouTube clone.
- Involved in both front-end and back-end implementation using MERN stack technologies.

Smart City Project | *CBSE National Science Exhibition 2019*

- Designed a miniature smart city model integrating Tesla coils, lasers, and other automated systems.
- Focused on sustainability and innovation in urban development, showcased at a national-level exhibition.

EXPERIENCE

DeltaTime Game Development Hackathon by Parallax Club, PES-ECC

2024 & 2025

- Participated in the 24-hour game development hackathon two years in a row as part of a dedicated team.
- Won **1st place in DeltaTime'24** and **2nd place in DeltaTime'25** among several competitive teams.
- Designed and developed engaging games under time constraints, demonstrating creativity, teamwork and technical skill.
- Recognized for overall gameplay, graphics, and innovation in both editions.

Code Red CTF-based hackathon by NITK

Aug 2024

- This online 24-hour CTF based hackathon was attended by us, as a team of 3.
- Challenging questions were posed related to Data Structures, Algorithms, Systems, Machine Learning, Development, and Image Processing.
- Finished the hackathon at 35th place among 320 teams.

SIH (Smart India Hackathon) Internal hackathon round at PESU

Aug 2024

- As a team of 6, pitched problem statement and prototype to a panel of judges.
- Problem: "Enhanced Victim detection in CSSR (Collapsed Structure Search and Rescue operation) using Advanced Technology" under Disaster Management theme.
- Solution involved geo-fenced perimeter setup and one-hop network for sending distress signals to victims and rescue team.
- Finished at 40th place among 140+ teams; top 50 from PESU representing the college at SIH.

Terrathon - Hackathon by Alcoding and CMS, PESU

March 2025

- Developed an AI-powered cybersecurity system that detects threats in real-time, isolates compromised devices, and ensures tamper-proof forensic logging using blockchain.
- Integrated AI-driven anomaly detection, autonomous threat response mechanisms, and Zero Trust architecture.
- Designed AI-powered honeypots to lure and study attackers, enhancing proactive threat intelligence.
- Implemented blockchain-based secure attack logging for verifiable and immutable forensic trails.
- Secured a Top 30 finish among 120+ participants in a 24-hour hackathon.

G Cube

November 2024 – Present

Club Head

- Founder and Head of PESU RR's first-ever Game Development Club, leading initiatives and managing teams.

The Embrione

August 2024 – Present

Event Management Head

- Organized and facilitated team meetings and ideation sessions while fostering team skills and excellence for Kodikon 4.0 as well as Kodikon 5.0, the biggest hackathons hosted by PES University.

IRA PESU

January 2024 – Present

Event Management Head

- Managed multiple events such as Women's Day and Independence Day, ensuring smooth operations and resolving issues promptly.

S&H Department, PES University

February 2024 – June 2024

Core Committee Member

- Organized department-wide events including Math Olympiads and CIE Ideathons, coordinating cross-functional teams.

EXTRA-CURRICULAR ACTIVITIES

- Club Head & Co-Founder of G Cube — the official Game Development Club at PESU RR Campus.
- Versatile and curious learner with a wide range of interests — a true jack of all trades, always exploring.
- Active participant in sports — gold medalist in 50m freestyle swimming (Under-14) and regular badminton player with a focus on fitness and discipline.
